

FIRM DESCRIPTION

**SEAN
O'CONNOR
LIGHTING**

Founded in 1997, Sean O'Connor Lighting is a full service architectural lighting design firm with a commitment to design excellence. Led by Sean O'Connor, IALD, MIES, the practice is dedicated to the design of environments which are a synthesis of light and space.

Our work is distinguished by light and its absence, and by an understanding that light is an integral part of the architectural experience. Creating specific visual destinations and compositions of layered light and shadow with the use of integrated architectural details and unique fixtures, Sean O'Connor's signature approach defines spaces through light, defining their character, identity, and beauty.

Understanding that inspiration is born from a wide range of influences, Sean O'Connor Lighting has built a team of designers with a diversity of backgrounds in architecture, interior design, fashion design, and product development. This multidisciplinary team has created award-winning and sustainable projects for a wide range of retail, hospitality, and residential clients.

This work has been recognized with awards from the American Institute of Architects, GE Edison, the International Association of Lighting Designers (IALD), and the IESNA's International Illumination Design Awards. Sean O'Connor was recognized as one of Architectural Lighting Magazine's "Promising People" in 2004, and Sean O'Connor Lighting has been cited four times as one of the Top 25 Retail Lighting Firms internationally.
